About Us

Applied Logic Solutions (ALS) is a provider of broad strategic technology and business solutions to the Federal Government and Commercial customers. Our services framework consists of IT Asset Management, Project Management, Staff Augmentation, Business Process Outsourcing, Enterprise Architecture, Infrastructure, Application Solutions, and Consulting Services.

As a Minority-Woman Owned Small Business and a Small Disadvantage Business ALS is committed to excellence and creating innovative and flexible solutions for our clients.

We are pleased to have this opportunity to introduce our company and family of employees to you. We are confident of our ability to meet your requirements by applying experienced solutions.

Our work ethic and results driven approach will put a smile on the face of your IT Management

Your business is unique. Your success is essential. With deep industry knowledge and a balanced view of strategy, people, processes and technology, we become a part of your team to understand your needs.

We utilize a network of talented professionals that promote a collaborative work environment and commitment to quality. This allows us to put together a team that can give you the seamless service that you need. Given the complexity of business today, the stone left unturned could very well be the one that trips you up.

That's why it's so important to examine opportunities and challenges from every angle - IT Asset Management, Staff Augmentation, Logistics, IT Project Management, IT Consulting/Solutions - and that's just what we help clients do.

Combining insight and experience by serving our client from multiple disciplines and industries, we help your organization excel. Our teams work under the leadership of a lead client service partner to help businesses uncover opportunities and manage risks in ways that help their management create more value every step of the way.

December 2012 - Applied Logic Solutions joins HMS Technologies in providing Staff Augmentation Services
