Andrea Hence Evans

Andrea Hence Evans, Esq. is Principal of KidGINEER, LLC. KidGINEER, LLC is a creative and unique STEM enrichment program targeting students ages 5-10. After learning that by the third grade, a child has permanently lost interest in math and science, Evans formed KidGINEER, LLC to expose students to STEM at an early age. The program features six week hands-on classes focusing on civil engineering, chemical engineering, biology, electrical engineering, robotics, math and computer science. KidGINEER's hands-on format is designed to expose students to STEM in a fun environment, while getting them excited about potential careers in STEM. Andrea Hence Evans, Esq. is a graduate of The George Washington Law School in Washington, DC. Evans is also a graduate of Spelman College and Georgia Institute of

Technology (Georgia Tech) in Atlanta, Georgia, where she obtained a Bachelors of Science in Mathematics and a Bachelors of Civil Engineering, respectively. She participated in a 5 year dual degree engineering program. After high school, she received the Women in Science and Engineering (WISE) full tuition academic scholarship to Spelman College and Georgia Tech from NASA and worked on numerous engineering projects at Johnson Space Center in Houston, Texas as a Summer intern. Evans is also the Principal of The Law Firm of Andrea Hence Evans, LLC, an intellectual property law firm in the Washington, DC area.
